

Fee Remission, Scholarships and Subsidy 5-Year Projection (2011-2016)

The following table shows the projection of annual expenditure in the Fee Remission and Scholarship Account for the next five years (2011-2016). Fee Assistance is mean-tested and is granted to families of low income according to the SFAA criteria. The Senior Secondary Scholarship is determined on a yearly basis; it is awarded to students of MS2 and above according to their performance in academic subjects in the immediate previous academic year[#]. Students taking the IBDP course who are qualified for the Senior Secondary Scholarship may use it to offset part of the higher school fee for the IBDP course. The Academic Scholarship is awarded to students of all forms in the Development Stage, Mastery Stage and Secondary Level of their studies; this consists of Overall Academic Performance prizes, Subject prizes and Academic Improvement awards. Non-academic Scholarship is awarded to students of very good conduct and those with excellent performance in extra-curricular activities. Books and Activities Subsidy is normally given to students who satisfy the criteria related to family financial income set by the school.
